Application for residence permit for a child born in Denmark

Mandatory digital self-service

An application for residence permit for a child born in Denmark is covered by mandatory digital self-service. This means that, normally, you cannot use this application form, but must use the digital self-service solution **BO1 online**, which the Danish Immigration Service provides at newtodenmark.dk

You should only use this application form, if you believe that you are exempt from the requirement of digital self-service. **Read more below.**

Use

Use this form when applying for a residence permit for your foreign national child who is born in Denmark. However you can only use the form if the child has not formerly held a Danish residence permit.

It is a requirement that at least one of the child's parents has a Danish residence permit.

How to apply

The child's parent, who has a Danish residence permit, must do the following:

1. Fill out and sign this form.
2. Attach a copy of the child's birth certificate.

3. Submit the application at the Danish Immigration Service's Citizen Service. You must book an appointment before you show up at the Citizen Service. Read more about where the Immigration Service's Citizen Service has branch offices and how you book an appointment at www.newtodenmark.dk/visit-us. You can also send the application to the Danish Immigration Service, Farimagssvej 51A, 4700 Næstved.

Which documents should you include?

- Copy of the child's birth certificate.

Residence card for the child

You can request a residence card for the child. The residence card is proof that the child has a Danish residence permit. The child must have his/her biometric features (digital facial image) recorded if the child is to have a residence card. Read more about biometric features in section 3 and at www.newtodenmark.dk/recidencecard

For more information

More information about the rules governing residence in Denmark is available at newtodenmark.dk, where you can also find information about processing times. If you have questions when filling out the form, you can also contact the Immigration Service. See contact information at www.newtodenmark.dk/contact-us.

Mandatory digital self-service

An application for extension of a residence permit on the grounds of family reunification with a spouse is covered by the requirement of using digital self-service. This means that, normally, you cannot use this application form, but must use the digital self-service solution **FA3 online** instead, which the Danish Immigration Service provides at newtodenmark.dk.

You should only use this application form if you believe that you are exempt from the requirement of mandatory digital self-service.

If you use this form and the Danish Immigration Service assess that you are not exempt from mandatory digital self-service, the Immigration service can reject your application.

You can be exempt from mandatory digital self-service if there are special circumstances which make you unable to fill in a digital application. These special circumstances can e.g. be that you lack digital qualifications or cannot use the digital self-service solution due to health issues.

If the Danish Immigration Service assess that you can be exempt from mandatory digital self-service, the Immigration Service will process your application, even though it has not been submitted digitally. When the Danish Immigration Service assess whether you can be exempt from the requirement of digital self-service, the Immigration Service will take into account whether you already have been exempt from registration of Digital Post.

It is not a requirement that third-parties, e.g. lawyers and relatives, as well as Turkish Citizens, who are covered by the Association Agreement between the EU and Turkey, have to use the digital self-service solutions.

Read more about who are exempt from digital self-service at www.newtodenmark.dk/self-service

Biometric features required on residence cards

When a child **below the age of 6** is issued a residence card, the child has to get their biometric features (digital facial image) recorded in connection with submitting the application for a residence permit. If the child **is below the age of 2**, you can bring a photo of the child that meets the standard requirements for passport photos. If the child is **over the age of 6**, the child has to have their digital facial image and fingerprints recorded.

If you send the child's application by **post** or **fax** or if it is submitted by a **third-party** such as a lawyer, the child must appear in person to have their biometric features recorded within 8 weeks of the application being submitted. When the child's biometric features are recorded, please remember to bring a photocopy of the completed application form. This will allow the immigration authorities to match the biometric features with the application. Furthermore the child has to meet up in person if you are submitting a passport photo of the child.

Biometric features can be recorded at the Danish Immigration Service's Citizen Service. You must book an appointment before you show up at the Citizen Service. Read more about where the Immigration Service's Citizen Service has branch offices and how you book an appointment at www.newtodenmark.dk/visit-us.

The residence card will be sent by post to the address that you (the child's parent) have registered in the Central Person Register (CPR).
